

CLASSIC CRACKMATE

Polymer Based Crack Filling Powder

PRODUCT

A factory blended easy-to-use, polymer modified, high strength, non-shrink, cementitious crack filling mortar. Designed for cost effective filling of cracks in concrete, masonry and plaster surfaces, including shrinkage cracks in plaster.

ADVANTAGES & BENEFITS

- * Non-shrink mortar with strong adhesive properties.
- * Excellent crack filling ability
- * Smooth finish
- * Prevents further crack propagation
- * High tensile strength

DESCRIPTION

Classic Crackmate is a polymer modified cementitious crack filling mortar with non-shrink properties, prepared by adding the specified quantity of water to the powder.

Classic Crackmate is used to fill cracks in both interior and exterior concrete, masonry and plaster surfaces. It can also be used as a thin render to even out surfaces.

PACK & COVERAGE

0.5 & 1 kg packs.

1 kg will fill approx. 30 – 40 m length of cracks cut into 6 mm deep V-groove.

INSTRUCTIONS FOR USE

Surface Preparation

Cut the cracks into 6 mm deep V-grooves. Clean the grooves with a wire brush to remove all loose particles. Sprinkle grooves with clean water.

Mixing

Classic Crackmate should be preferably mixed mechanically using a slow speed drill with paddle attachment, slowly adding 1 kg of ***Classic Crackmate*** to 250 to 300 ML of clean water, until a homogenous mortar of smooth, creamy and trowellable consistency is obtained.

Application

Fill the prepared cracks tightly with the mortar using a small trowel or putty blade and finish to a level surface. Remove excess mortar with clean moist sponge or soft cloth before it dries totally.

HANDLING PRECAUTIONS

Classic Crackmate is non-toxic, but mildly alkaline when wet. However, in its wet state, if contact with skin occurs, wash well with clean water. Inhalation of dust from the dry material should be avoided.

STORAGE LIFE

Classic Crackmate has a shelf life of 6 months when stored, unopened in the original pack, under dry condition at moderate temperatures.

OUR RANGE INCLUDES

- **Admixture**
- **Waterproofing**
- **Sealants & Protective Coating**
- **Repairs, Adhesives and Surface Treatment**
- **Industrial Grout & Flooring**
- **Epoxy Products**

ECO FRIENDLY & SPECIAL PRODUCTS

- **Liquid Granites**
- **Geo Polymer based Eco Friendly Products**
